# Step by Step

# LET'S CREATE

1 Cut two rectangles of felt 9cm by 5cm, and round off the top with a pair of scissors.

2 Thread a size 18 tapestry needle with 60cm of acrylic yarn. Using a blanket stitch, sew the two rectangles together, leaving the bottom edge open.

3 Cut out some features from contrasting Peel & Stick felt. Or use standard felt and PVA glue. Why not try hands, feet, ears, muzzles, tails, beaks, wings and spikes?

4 Glue on some wiggly eyes using PVA glue.

5 Finish off your creation by adding in detail with a black Spectrum Fine marker. Leave to dry overnight.

**Tip!**  
If blanket stitch is too difficult, run a bead of glue around the edge of the felt leaving the bottom edge open.
